

Journée de rentrée de l'EDMH 2024

PhD can be challenging...

- Difficult experiences of former PhDs
 - PhD can be a challenge (self-confidence, pressure, isolation...)
 - Not easy to meet other PhDs informally
- let's create some collective!

...a possible answer: the GCD!

- An inclusive structure to meet and to exchange *informally*
- Provide mutual support (emotional, administrative)
- Share good time together!!!

We propose...

- Ways to meet:
 - > Discord server - join us!
 - > LMO (break room of Library JH)
 - > regular going out
- Share material on PhD life
- What **YOU** propose ~ ~ (_ ^ . >

Experimental structure

- Participative/horizontal organization
- Open from M2 to Postdoc
- Not limited to math nor Paris-Saclay

Join us and shape it
the way you want!

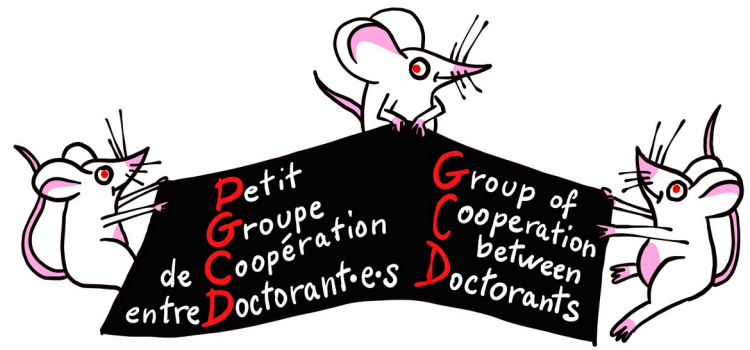

Thanks for your attention!

Let's meet at the end of the day, then apero/dinner?

Join Discord for live info!

Bon appetit!

Trop souvent, l'isolement est un dénominateur commun aux doctorant·e·s. Alors pour changer ça, créons du collectif !

Pour se rencontrer, s'entraider, discuter des problématiques qui sont les nôtres – et aussi partager des bons moments! – le P&CD propose de se retrouver de manière informelle, partout où c'est possible.

Si ça te parle, rejoins-nous sur Discord. Du stage de M2 jusqu'au postdoc, tu es bienvenue :)

Too often, isolation is a common denominator of doctorants. Let's change this and create a collective!

To find and support each other, to discuss our own specific issues – and to share cool moments as well! – the GCD proposes to meet each other informally, wherever possible.

If this speaks to you, join us on the Discord. From M2 thesis to postdoc, you are welcomed :)
